We would call special attention to the closing sale of houses and lots in Hynes' addition, and would suggest to the public that this is an exceedingly favorable opportunity to get good homes at a small cash advance. It is very different to build a home and pay all cash than to have one offered without further trouble only to walk in and occupy by paying down the small remuneration of one-fourth cash and bal-ance in one, two and three years. This is perhaps the most desirable property in the city, and will soon be impossible to purchase. This is the closing sale of the original owner, and we would recommend per sons to avail themselves of this occasion. The terms are liberal and the property de-

Tim Canley was yesterday arrested on the charge of stealing a hat from the store of Gray & Noble. The case was heard by Justice Baskette, and the occused failing to give bond for future appearance, was sent to jail. It seems impossible for some men to learn, except in the school of bitter ex-

The jury of inquest now inquiring as to the probable cause of the death of a little negro girl, daughter of Ulsa McLaughlin, have not yet completed the investigation being made, but will probably be able to do so to-day. When their verdict is rendered, Sallie Bateman, the accused poisoner of the child, will be put upon her trial before Justice Cassetty, and furnished an opportunity to establish her innocence, if such a thing be possible.

Killed from the Hick of a Horse. Late yesterday afternoon, little Clarence Lewis, aged 7 years, was kicked by a horse at the residence of his father Dr. C. L. Lewis, on North Summer street, and killed almost instantly. The skull was fractured in a horrible manner. A colored individual named Austin Hanmer was brought up before Justice Baskette to answer the charge of larceny, it being alleged that he had stolen a pistol from A. J. McKimmon. There not being sufficient proof to establish the fact as charged, and the accused presenting abundant proof as to good character for honesty. he was discharged and the accusation against him dismissed. There are some-times practical demonstrations of the fact that a good name is rather to be chosen

than great riches. Brutal Assault upon a Child. Allen Redford, a little son of Rev. A. H. Reaford, was badly cut in the hand and wrist at 81 o'clock last night, while endeavoring to make his way out of the crowd on Broad street in front of the Exposition. The cutting was purposely done by a brutal negro, who held a large knife out as if to prevent the child from passing out of the crowd. Mr. Redford ran instantly to the child upon hearing him scream, but the savage creature who inflicted the injury had escaped. The leaders of the boy's left wrist were severed, and a severe cut made

in the palm of the hand.

Mrs. Hill was but slightly burt. The horse continued his wild run for some distance, literally breaking the buggy into fragments, and very badly injuring one of

Another Large Attendance Anna B. Successful in a Game of Euchre. The War Over and a Quarterm

Still Taking More Money. We record another brilliant day for the Nashville Blood Horse Association. The attendance yesterday was equally as large as on the day preceding, and for two days in succession we have never seen such crowds upon our course. And what a brilplay, too, on the part of the ladies ! and what a charming array of beauty. If the ladies continue to turn out as they done for the past two days, the stand for their dation will certainly have to be

The first race yesterday was two mile heats for an Association purse of \$600, with two entries, Euchre and Annie B., both renowned in the annals of the turf. fice will be charged 20 cents a line, likewise payable in advance.

This celebrated watering place, the Switzerland of the South, located in Morses and the state of the turn. These contestants had but recently come together at Memphis, and after a hotly contested struggle, Euchre had proved to be the victor. This fact being known made the latter first choice, but the odds were small. Both nags had their respective small. Both nags had their respective small. backers, and a large amount of money was put up on the result. ength and a half in advance, passed the first quarter three lengths in front, ditto at the half mile, the same at the three quarter post. Down the home stretch, Euchre closed the gsp, and was engaged in a very handsome dash at the first mile—Annie B. passing under the string in 1:49, about a ength in advance of her adversary. There was but little change in position for the next three quarters of a mile, when Annie open-ed the gap to four lengths, and in that posi-tion they turned into the home stretch, and came rattling towards the stand. Before reaching the distance stand, it was evident there was no show for Euchre to win the heat, and she was pulled up, Annie B. passperience, that the way of the transgressor is ing under the string in a canter, full five lengths in the lead. Time 3:39.

Upon this result, the knowing ones immediately changed tactics, and invested largely on Annie B., pools selling at \$100 to \$20 and \$500 to \$50. SECOND HEAT-Annie B. took the lead

as before, but in making the first turn Euchre came up suddenly and passed to the | be held. front, and upon reaching the first quarter was two lengths in advance. This position was maintained for the first mile, which was made in 1:491, when gentle Annie commenced closing the gap, and at the next quarter mile post was only a half length in the rear. Before reaching the second half mile Euchre had been turned down, and at the three-quarter pole Annie B. was leading by two lengths. Coming down the home stretch Eucre made a brilliant dash, but little Annie was not to be scared, and reached nome the winner of the heat by a length in 3:38-said to be the best second heat ever made on the course. AN UNWISE EXPERIMENT.

From the Knoxville Press and Herald. Chancellor Edward H. East, who signs nimself "Chairman of State Central Committee" of Liberal Republicans, publishes an address protesting against the running of an electoral ticket by the Democracy is Tennessee, and proposing that the Liberals present a ticket of their own. Personally, Chancellor East is entitled to much respect, but what particular interest or political power he represents in his character of "Chairman," we have no means of "Chairman," we have no means of knowing. Liberal Republicanism, prop-er, in Tennessee, is a yet an undefined and unknown quantity. Individual members of the Republican party, here and there, like Chancellor East, Ex-Senator Fowler, Col. Thurston and a few others, we know, but any organization of men, capable to carrying even a civil district in the State, without Democratic aid, we have no knowledge of. We have no doubt that hundreds of men now known simply as the 30th of June, 1865, by agents of the Republicans in Tennessee, will, before the government, unlawfully and in violation of ides of November, array themselves in favor of Greeley and Brown, and will not be deterred from doing so by the fact that the Greeley and Brown ticket has been presented by the Democratic Convention. We presume such men, in Tennessee, as call hemselves Liberal Republicans, sincerely desire that the eleven votes of Tennessee shall be cast in favor of the Cincinnati ticket. They know, too, that without the aid of the Democratic vote, there is no possibility of securing these votes. That the Democrats of the State have declared their willingness to withhold any candidate from the field and to support the Liberal ticket, certainly ought to satisfy patriotic men. If the Democrats are willing to suppert Republicans for President and Vice resident, surely the comparatively few Liberal Republicans in the State will not refuse to give their support, to the ticket, merely because the candidates for electors are Democrats. Yet such seems to be the spirit of Chancellor East's address. To persist in such a course will be simply factious and puerile. It will seem unpatriotic, and, in its results, so far as affecting either the cause of the Democ-1acy or the triumph of the Liberal ticket in l'ennessee, will be contemptible. The Democracy will give the vote of Tennessee to Greeley and Brown by forty to fifty thousand majority, either with or without the co-operation of the men whom Chancellor East represents. A full and hearty and honorable co-operation of all the opponents of Grant, is of course, to be desired. We want Tennessee's rebuke of Grant to be overwhelming. We want to cast the heaviest majority against him ever re-corded by Tennessee against a Presidential candidate; and we believe that the Liberal Republicans in the State, and Chancellor East, himself, with them, will yet see the folly of a quixotic attempt to weaken the force of the anti-administration feeling in Tennessee, and will unite with the Democ racy in the support of a common ticket. If not, their further display will be only farc-

ical and calamitous to themselves. THE Pall Mall Gazette thinks that the reason why genius in a man is always inherited from the mother, and that the children of clever men are usually fools, is that men, by the incessant use of their in-tellectual and nervous power in their business and professions, exhaust that vitality which, lying dormant in the woman, is transmitted to her offspring. "If women, then," it argues, "are to be thrown into the first race at all, and the only entries being this trace at all, and the only entries being when the control of the higher faculty, there will remain men of the higher faculty, there will remain no abundant, undistributed source of mental force from which the next generation can draw."

A Canal from the Mississippl to the Atlantie. WASHINGTON, May 15 .- The President in renly to a delegation from Georgia urging the construction of the interoceanic canal connecting the Mississippi with the Atlantic, to-day said he saw a map of the route yesterday and it looked to him eminently practical and he thought it very important in view of the fact that the present rontes are inadequate to the needs or commerce and were it not for the heard any expression of opinion among the members, but they would see its import-ance, and he thought, by the proper pre-sentation of the case before the two Houses, there would be a strong disposition manifested to carry the enterprise through. He regarded it as of national importance and

Senator Caldwell Baffled. LEAVENWORTH, Ks., May 15.—In the case of Senator Caldwell against W. S. Burke, former editor of the Bulletin, which has engressed the attention of everybody here for several days past, the jury to-day returned a verdict for the defendant. Public sentiment altogether with Burke and the decision was received with rejoicing. ----GENIAL TOM Bows, well known in the

Keep the Hair Unblemished-"I am like an old hemlock-withered at the top," said a venerable Indian Chief, pointing to of men and women in civilized society, much younger than the old Sagamore, are like him, "withered at the top," simply because they have neglected to use the means
of preserving and beautifying the hair
which science has placed at their disposal.
If Lyon's KATHAIRON be faithfully applied once or twice a day, to the fibres and
the scalp, it is just as impossible that the
hair should decay, wither, fall out or become harsh and fuzzy, as that a meadow,
duly refreshed with nightly dews and sunlit
rains, should become arid and barren of
green blades. This matchless preparation
not only keeps the hair alive and the skin of
the head in a healthy and clean condition. Lke him, "withered at the top," the head in a healthy and clean condition, but actually multiplies the filaments and imparts to them a lustre, flexibility and

vigor to the fibres. my14 deod1w&wit Dr. Sage's Catarrh Remedy.-\$500 reward for an incurable case. Sold by ruggist, or by mail, 60 cents. Address R. V. Pierce, M. D., Buffalo, N. Y.
